Dear Friend:

Ranting, Raving, and Rioting on college and university campuses will continue to increase unless we find an effective way to counter the left-leaning organizations operating within the schools.

Hundreds of thousands of students are being influenced by the National Student Association (NSA), which masquerades as simply a "student government" organization. The nation's students must be told that nothing could be farther from the truth. They must be encouraged to reject their school's membership in NSA.

The left-leaning NSA supports radical dissenters and leftists and provides a "respectable" forum in which they can operate.

These are some of the controversial policies which were adopted over the last several years by the delegates to the National Student Congress of NSA, acting as the representatives of the American student community:

---Black Power - NSA has called for the liberation of all black people in America "by any means necessary."

---Condemned the "aggression of the U.S. Government against the people of Vietnam."

---Strongly urged that the House Committee on Un-American Activities be abolished.

---Asked the U.S. Government to propose the admission of Communist China to the United Nations.

---Urged cessation of military and/or economic assistance to Spain, Portugal, Republic of South Africa, Nicaragua, Haiti, Paraguay, Guatemala, Peru, Argentina, and Iran---NOT A SINGLE SUGGESTION THAT THE UNITED STATES TAKE SIMILAR ACTION TOWARD A COMMUNIST NATION.

On the issue of "student power", NSA states its position this way, "If you don't give what we want, we'll have half the people here on the streets in 24 hours. We'll demonstrate, we'll throw up picket lines, we'll block all deliveries. We'll bring this place (the campus) to a grinding halt."

In truth, NSA is NOT representative of American student opinion. The STOP-NSA committee (an ad hoc committee of national Young Americans for Freedom) was formed to combat the influence of this left-wing organization and to adequately represent NSA for what it is, ---a smear against American students.

(over)

Largely through the efforts of the STOP-NSA committee a great number of schools have already withdrawn from NSA, ---such schools as Cornell, Dartmouth, Duke, Indiana, Miami (Fla.), Michigan, Ohio State, Rice, Texas, Yale, Brandeis, Houston, George Washington, and the University of Southern California.

Everyday, the STOP-NSA office receives requests from students, faculty members, even college presidents, asking for literature, speakers, and field organizers to help combat the National Student Association. Many times the committee has to say no. The funds simply are not available to fulfill their needs.

This year, more than ever before, STOP-NSA must send its representatives and literature to more than 2,000 college and university campuses in the United States. This vital project will require upwards of \$100,000.

Your help is urgently needed to underwrite the STOP-NSA activities. The bulk of the funds needed must come from patriotic supporters like yourself. Your help will play a big part in the STOP-NSA campaign.

The postpaid envelope enclosed needs only your contribution to send the truth to the students this year. Will you mail your check today? Send \$1000, \$500, \$100, \$50, \$10, or whatever you can, but do it today.

The future of our country is in the hands of today's students. They will learn to make the right decisions if you will help. Thanks.

Sincerely,

Buz Lukens
